BETLACE: INDIVIDUAL SOLUTIONS AND APPROACH

Welcome to Betlace - Your Premier Partner in Tailoring Exceptional Web Solutions! Betlace stands as a distinguished agency specializing in the bespoke development of websites and tailored solutions on the WordPress platform. Our extensive portfolio ranges from the creation of streamlined and impactful landing pages to the development of intricate plugins and seamless integrations. We take pride in offering custom design services that elegantly showcase your brand, ensuring optimized user experiences and delivering professional solutions meticulously crafted for the WordPress environment.

Our comprehensive suite of services extends to the creation of individualized plugins and seamless integration with leading services, amplifying the efficiency of your digital presence. With a global clientele, we uphold a commitment to delivering a consistently high standard of quality and professionalism in every project we undertake.

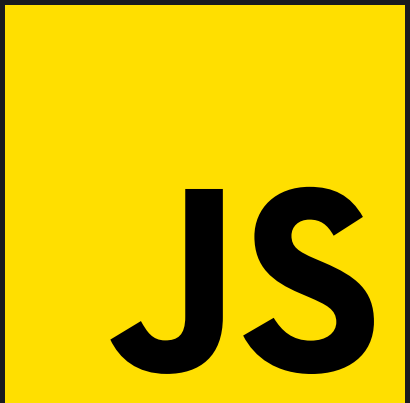

At Betlace, we amalgamate cutting-edge expertise in web development with a personalized approach to each project, ensuring a tailored solution that aligns seamlessly with your unique requirements. Entrust us with the realization of your ideal digital space. Connect with us today, and let us collaboratively bring your digital ambitions to life

OUR SOLUTION

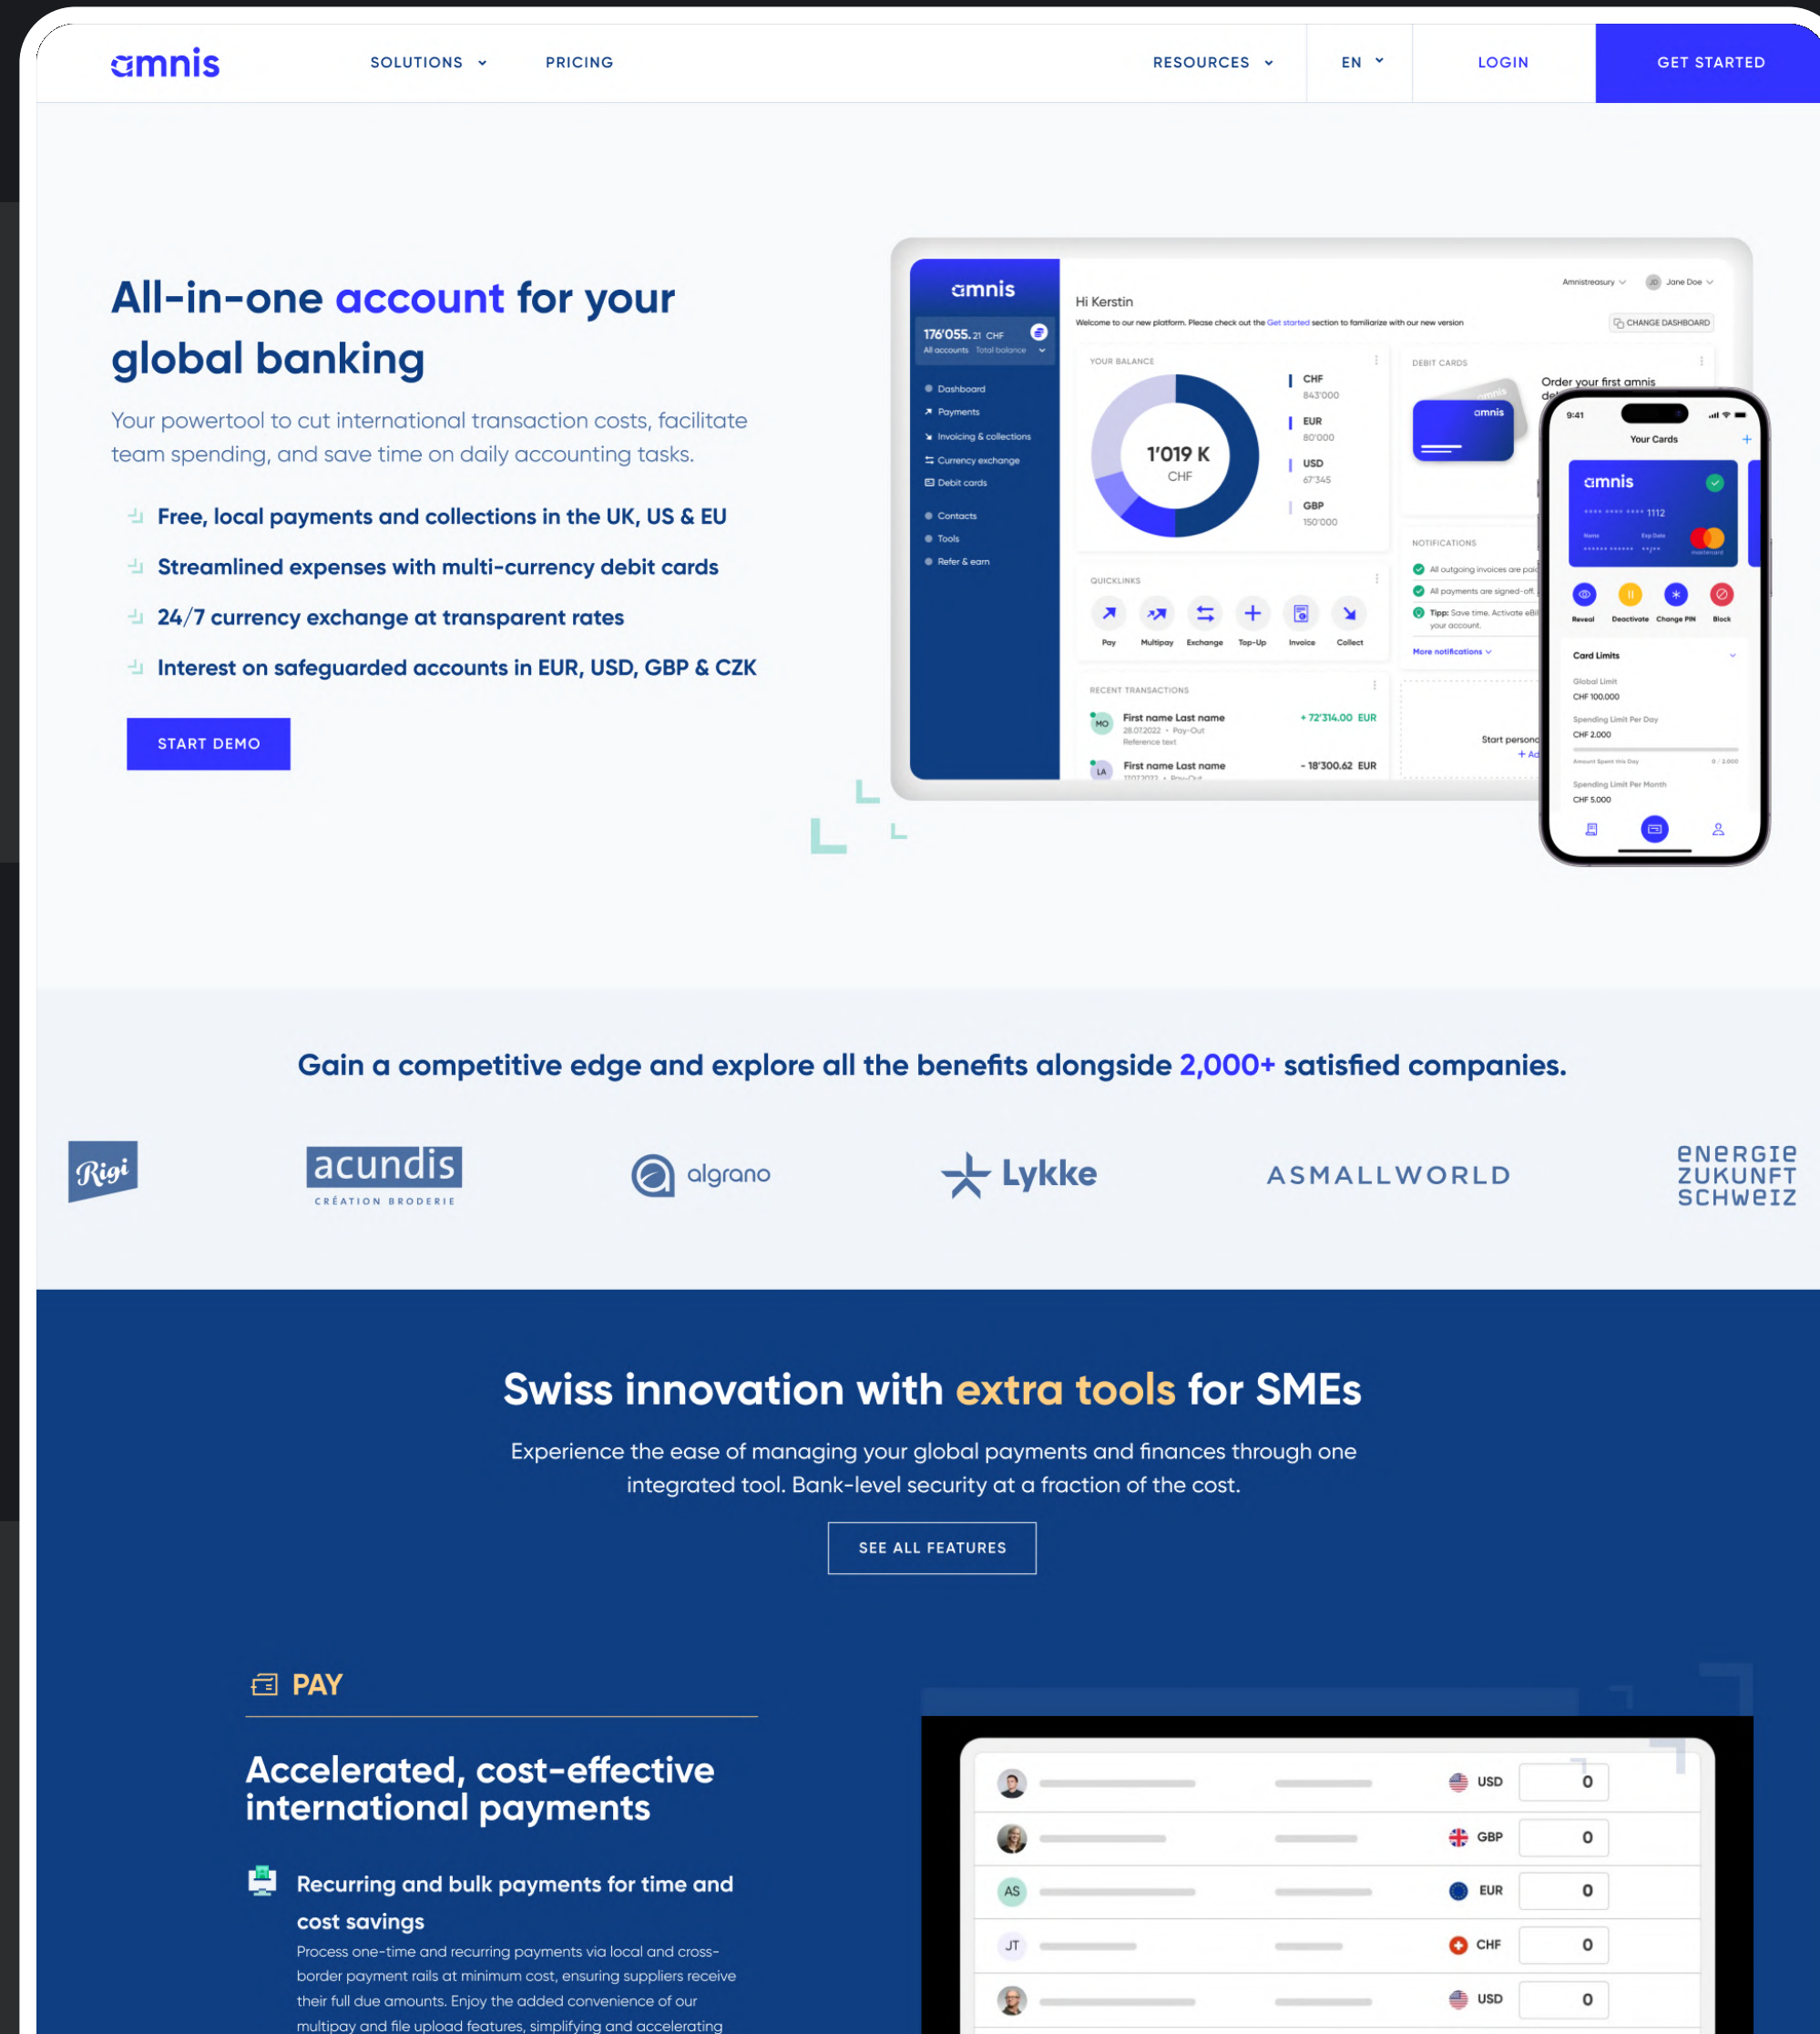

We are engaged in all kinds of robots related to WordPress

We create any custom solution under the customer's request

COMPLETE PROJECT

AMNIS

Corporate website for money transfer service

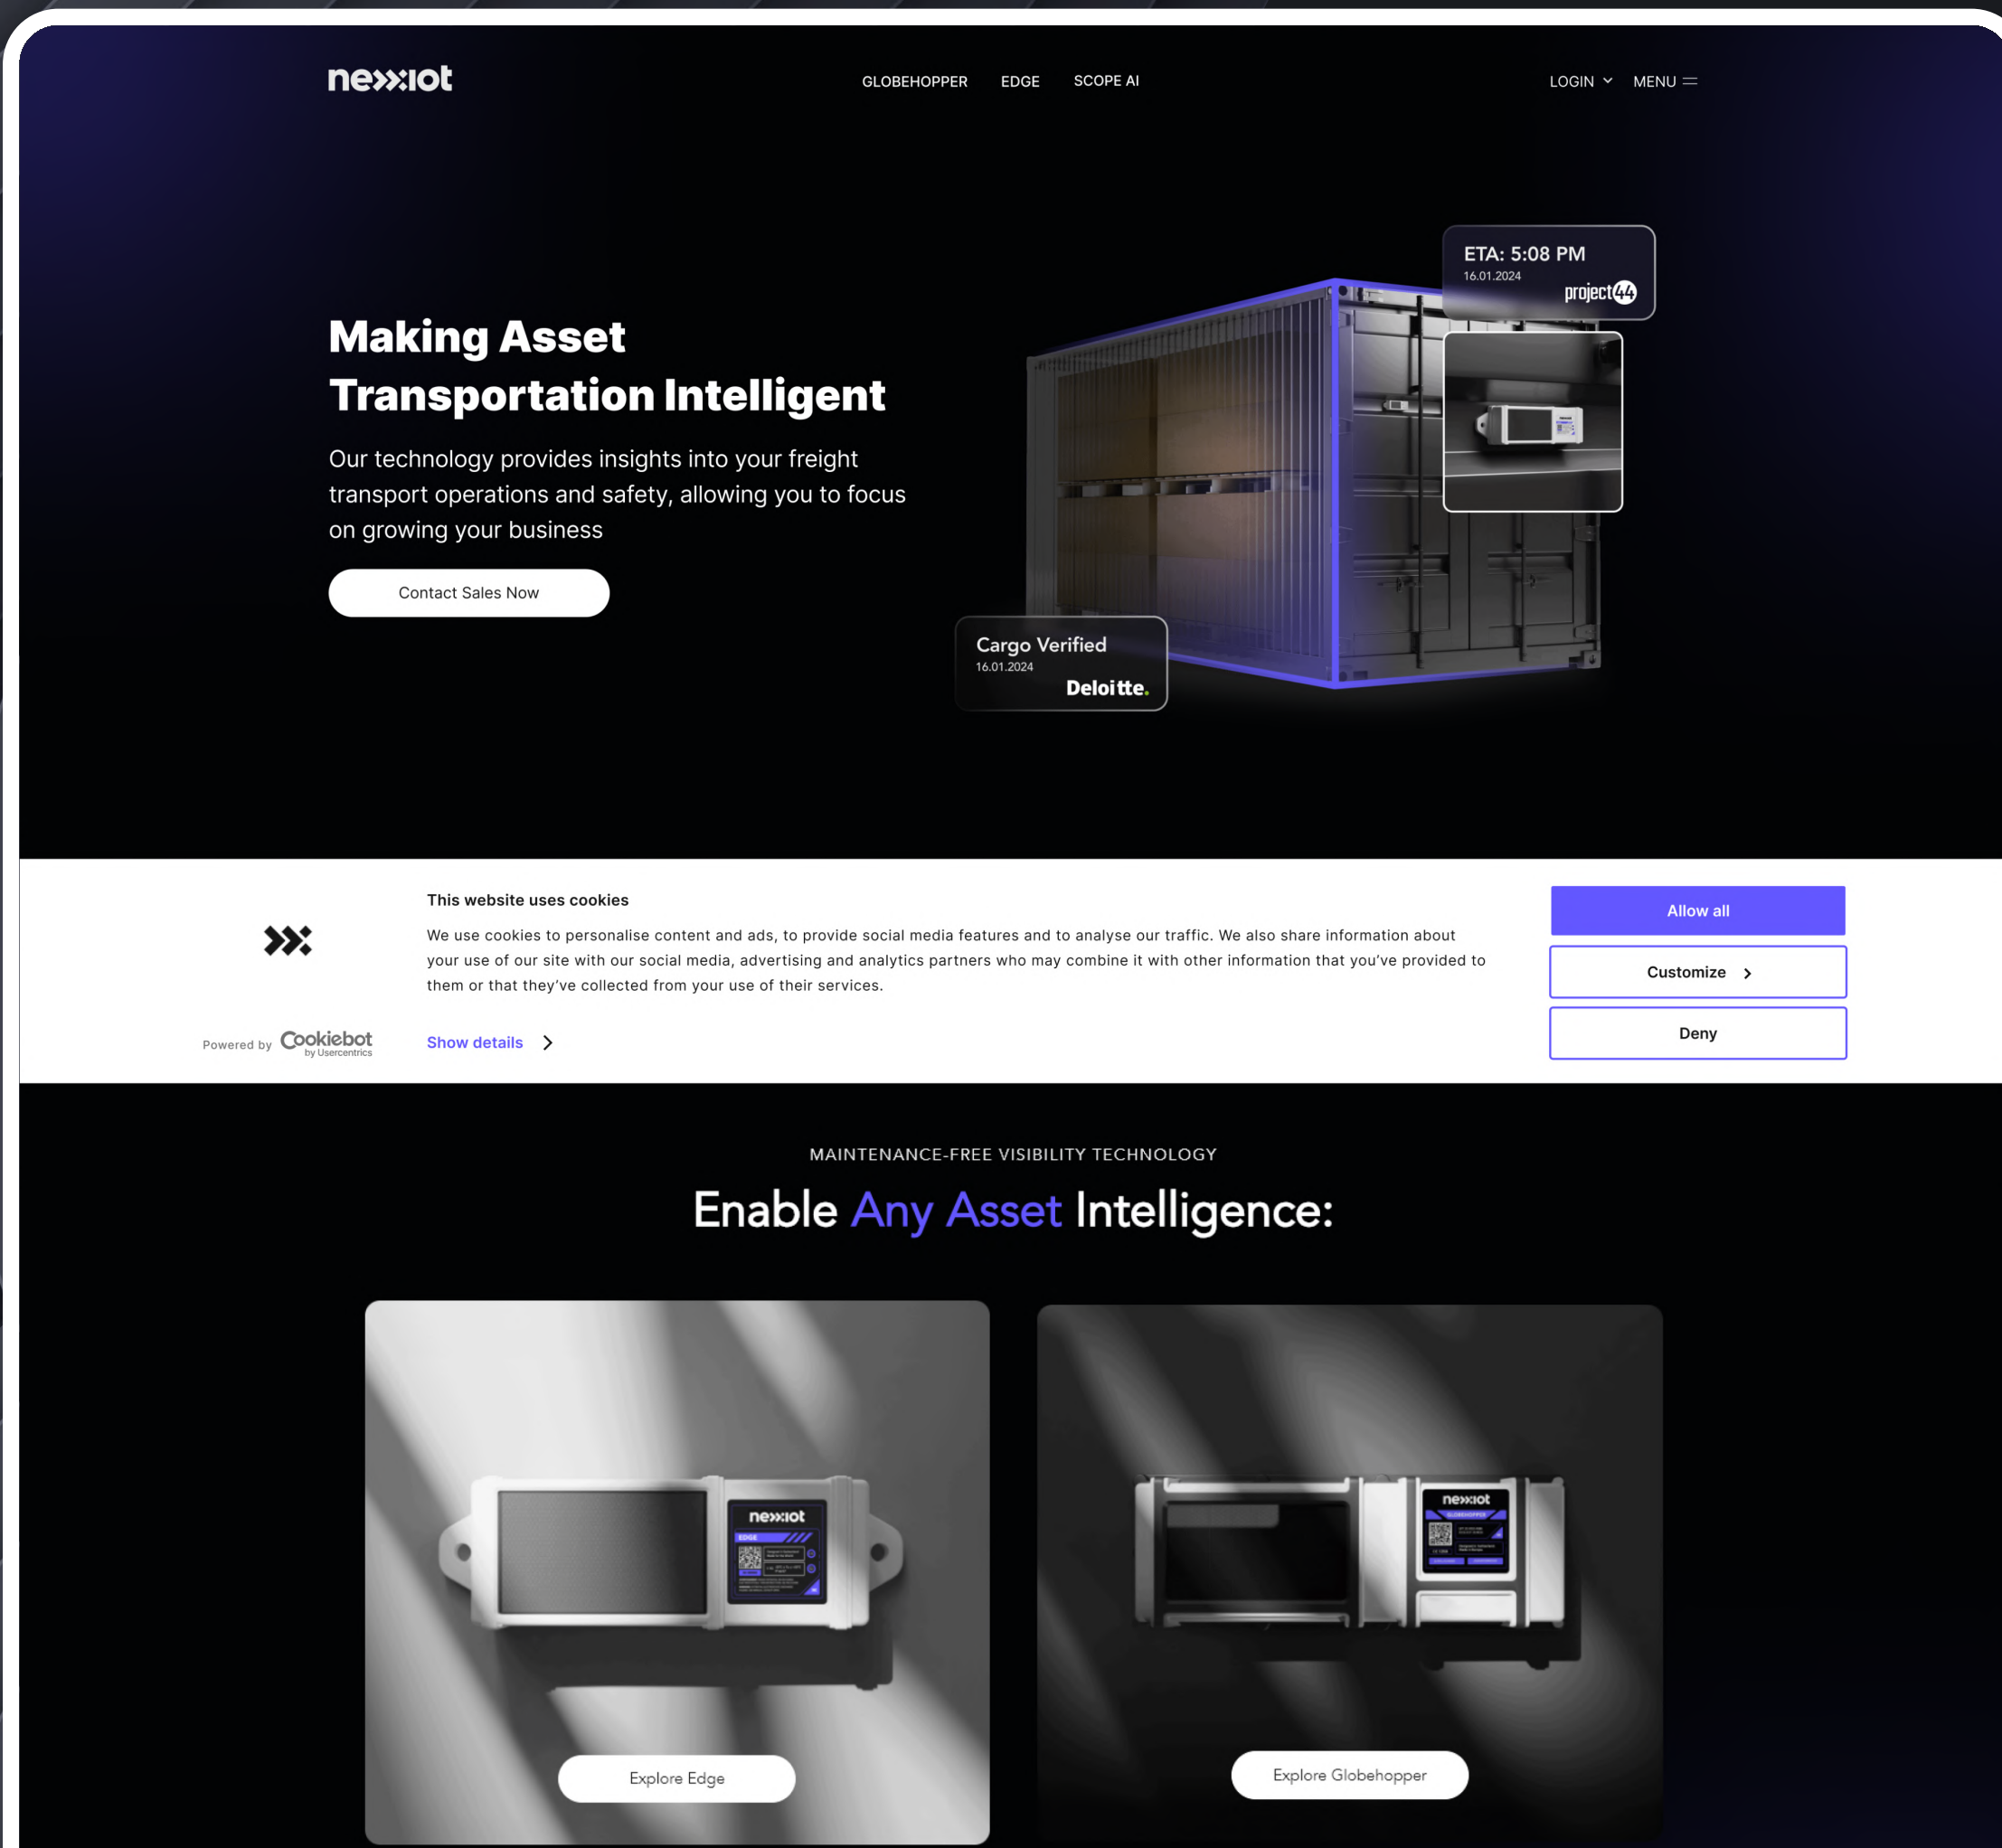

Starting from scratch, we transformed the old Amnis Treasury website using their brand new brand book as our guide. We supported the old site, added new pages, then redesigned and developed the new site using WordPress, ACF, and jQuery. We aimed to keep the SEO and stick to their corporate style.

COMPLETE PROJECT

NEXXIOT

Corporate website development for Nexxiot using WordPress and ACF. Our team designed and built a professional and informative website to showcase Nexxiot's innovative solutions. Leveraging WordPress and Advanced Custom Fields (ACF), we ensured seamless content management and delivered a visually appealing website that accurately represents Nexxiot's corporate identity.

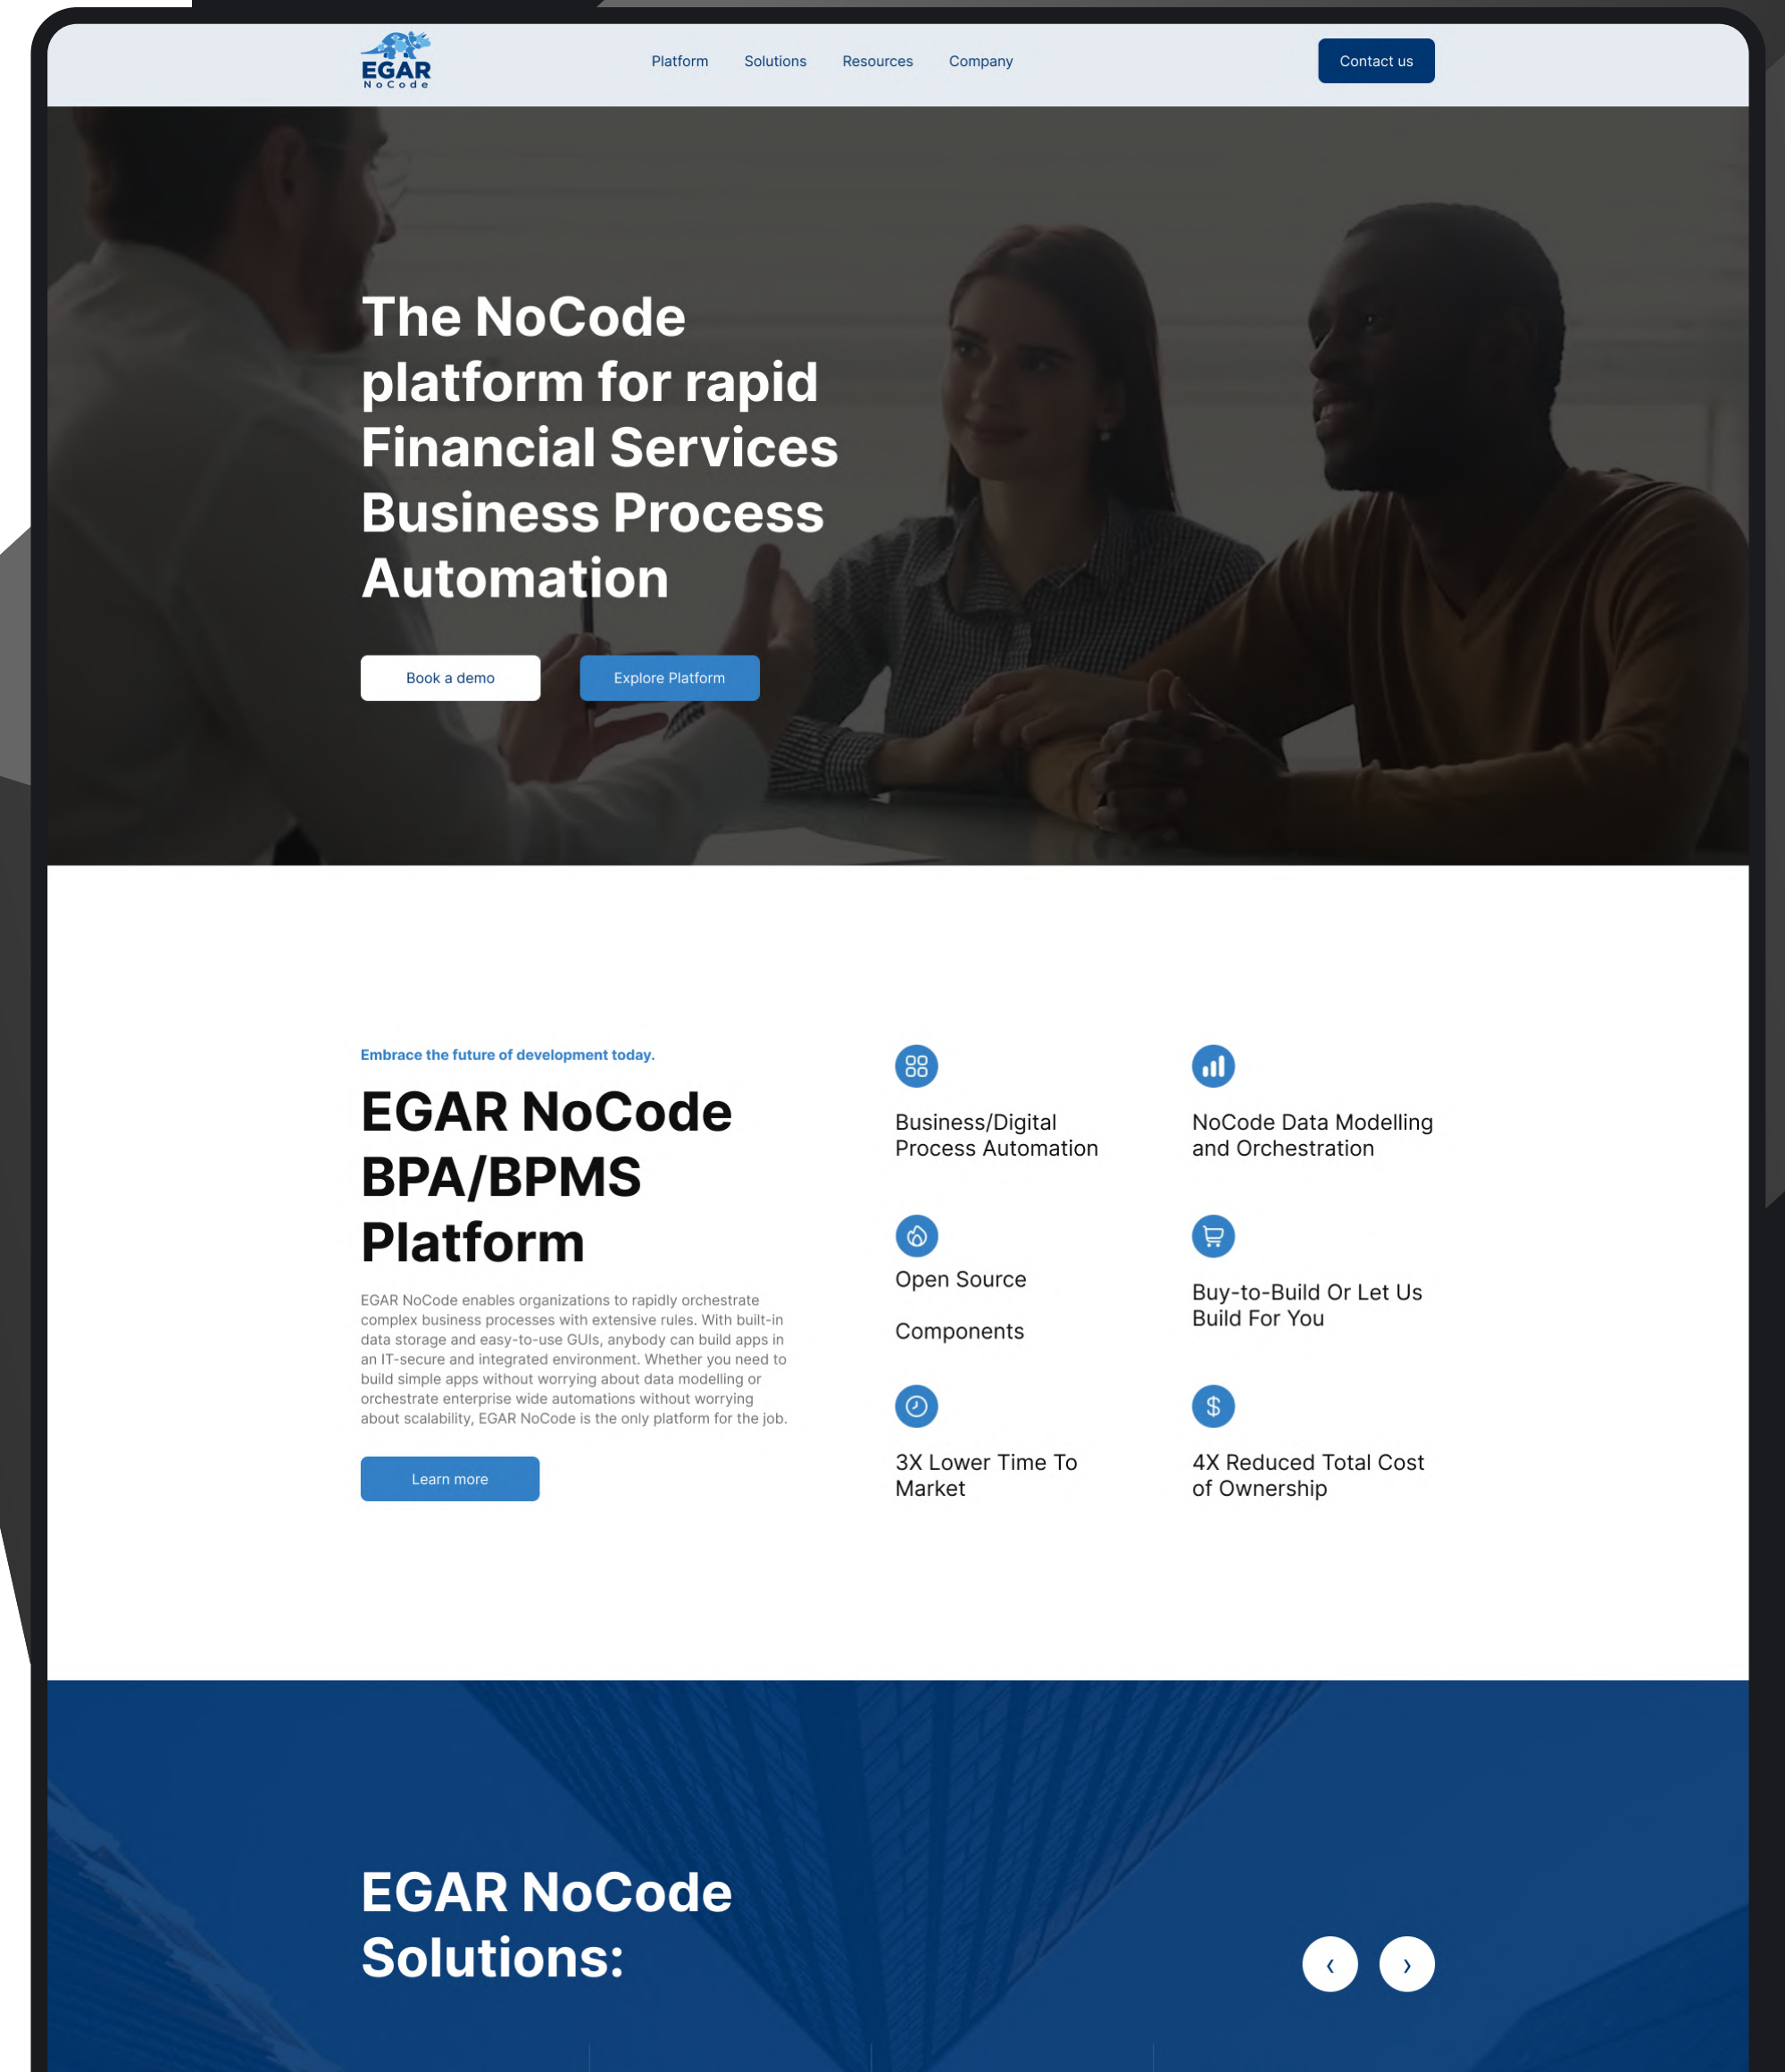

COMPLETE PROJECT

NO-CODE

Corporate website for a company from the fintech sector

Corporate website development for Egarno using WordPress and ACF. Our team crafted a modern and professional website to showcase Egarno's services and expertise. Leveraging WordPress and Advanced Custom Fields (ACF), we ensured a seamless content management system and delivered a visually appealing website that accurately represents Egarno's corporate identity.

COMPLETE PROJECT

Braavos Blog Download

Braavos Wallet on STARKNET
The next generation of wallets made for an intuitive and safe start in crypto

Available on Android, iOS, Chrome, Firefox, and more!

A Self-Custodial Wallet Designed For All Your Web3 Needs

Buy, store, and send
Manage your tokens wherever you are with a single app

BRAAVOS

Corporate website for NFT startup.

Our client launched a corporate website for a cryptocurrency wallet on STARKNET. We implemented a simple and stunning design into a complex WordPress solution based on their requirements.

COMPLETE PROJECT

NIXI1

We designed and developed the website, integrated WooCommerce subscription, and connected the custom API and subscription system.
